Dear Friends of HDSA,

The Huntington's Disease Society of America (HDSA) is excited to announce the 8th Annual Fairways For Hope Golf Tournament will be held on Saturday, July 27, 2024 at Arrowhead Golf Course. This golf event represents a local opportunity for members of the HD community to come together with friends, family members, neighbors and the community at large to raise necessary awareness and funds to support HDSA. We sincerely hope that you will join us this July.

Huntington's disease (HD) is a fatal genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities during their prime working years and has no cure.

Every child of a parent with HD has a 50/50 chance of carrying the faulty gene that causes HD. Today, there are 41,000 symptomatic Americans and more than 250,000 at-risk of inheriting the disease. Many describe the symptoms of HD as having ALS, Parkinson's and Alzheimer's – simultaneously.

A local Golf Tournament sponsorship at any level is an excellent opportunity for you to support a great cause and to take advantage of a wonderful marketing opportunity. As a local sponsor, you will be increasing your brand recognition and visibility, demonstrating your commitment to the local community your employees and customers live and work in.

Proceeds from the event support the mission and programs of HDSA, the premier nonprofit organization dedicated to improving the lives of everyone affected by Huntington's disease. From community services and education to advocacy and research, HDSA is the world's leader in providing help for today, hope for tomorrow for people with Huntington's disease and their families. In the battle against Huntington's disease no one fights alone. At HDSA, family is everything.

Enclosed you will find a packet that outlines the sponsorship opportunities in detail. Additionally, we are looking for donations for our Silent Auction. Please contact us directly if you have questions or need additional information. Thank you, for your consideration, and we hope to see you at the 8th Annual Fairways For Hope Golf Tournament on July 27th!

Thank you for your consideration!

Matt & Sarah Park - fairwaysforhope@gmail.com

HD & HDSA

Huntington's Disease (HD) is a genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities usually during their prime working years, and is ultimately fatal.

HD manifests as a triad of motor, cognitive and psychiatric symptoms, which progressively get worse over time. The symptoms of HD are often described as having ALS, Parkinson's, and Alzheimer's disease - simultaneously.

Every child of a parent with HD has a 50/50 chance of inheriting the faulty gene that cause the disease. Today, there are approximately 41,000 symptomatic Americans and 200,000 people in the United States at-risk of inheriting HD. In less than 10% of cases, juvenile Huntington's disease (JHD) affects children & adolescents.

THERE IS NO CURE....YET.
